A very disastrous fire broke out here Sunday morning at 9:30, originating in W. A. Arnold's livery stable, presumably from a spark dropped by a careless smoker. The building adjoins the Garrard Hotel and in less than an hour it was evident that the hostelry would be burned. Heroic efforts were made to save the handsome structure but the small quantity of water available made all efforts futile. There were nine horses and 12 buggies burned, and including the building the loss is \$4,500 with insurance of \$1,000. The hotel was owned by a Lancaster company and was valued at \$30,000 with insurance of \$12,000. The furniture was removed from the building. The proprietor, T. B. Long, also sustained a severe loss, having \$500 worth of preserves destroyed.

F. P. Frisbie's drug store, Burnett & Shugart's shoe and clothing establishment and Henry Duncan's barber shop and the opera house were all in the hotel block and goods were much damaged by the removal. Frisbie held insurance of \$2,500 and the other firm held enough to cover loss. Extine's small tailor shop was also burned. This the fourth hotel that has been burned on the same site, the first in 1867. Two livery stables have gone up in smoke in less than five months and the Lancaster people are now thoroughly convinced of the need of water works, which are now under contract.

There were no Sunday schools nor preaching at any of the churches Sunday morning, ministers and laymen alike joining in the fight against the great conflagration.

THE PEOPLE WANT TO BE HEARD

First Gun for Fair Election Methods.

At a meeting of the Lincoln County Democratic Committee, held at the request of its members, at Stanford, Ky., Aug. 2, 1902, the following resolution was unanimously adopted:

Inasmuch as the democrats of this county, with hardly an exception, desire that their nominations for Circuit Judge and Commonwealth's Attorney in this district be made by the primary election, provided by law, believing as they do that this is the fairest and best method of ascertaining the party's real preferences and the surest way of averting discord and scandal and of securing party success, and inasmuch as we heartily concur in this opinion and share in this desire,

RESOLVED, that we respectfully request and instruct that the Chairman of this Committee, in his capacity of member of the District Committee, do in this matter respect the unmistakable wishes of the people, of whom he and we are but the servants, and employ all fair and honorable efforts to have the committee, at its meeting at Danville on Aug. 9th, order a primary election for district nominations, and at as early a day as permissible under the law.

After the resolution had been adopted, the chairman, R. C. Warren, in response to it said, in substance, that he recognized in the fullest that all party power rested in the individual members of the party and that they had at all times the right to advise and even to instruct their agents and servants and that in the present instance he could and would most cheerfully pledge himself to be guided by the spirit of the resolution just adopted.

Prof. J. W. Davis Gets Excited Over Oil Business in Cumberland County.

MARROWHONE, July 31.—A few days ago I came to Cumberland county to visit my father, who has been in feeble health for some time, and when I arrived I found all greatly excited over the oil boom, or as some express it, the "probability of Cumberland county being blown up at any time." Cumberland's oil fields have for some time been attracting the attention of oil men. In fact the first oil well in the United States was drilled near Burkesville about 1829. There have been a number of wells put down from time to time since then and some dry holes have been the result, while others have been wonderful gushers. The Greensburg Oil Co., of Greensburg, Pa., was drilling a well in Salt Lick Bend and about 1 o'clock Tuesday morning July 22 when they had reached the depth of 460 feet the oil and gas shot high in the air, forcing the drill nearly out of place. The oil quickly ignited from the engine and in less than five minutes the machinery and everything else within reach was destroyed. It has burned constantly since with a blaze some 50 or 60 feet high and at intervals of about 10 minutes the oil and gas is shot high into the air while the flames leap to the height of at least 150 feet. When it belches forth this great quantity of oil and gas and sends the flames high in the air, the heat becomes so intense that the people who have come miles to see the wonderful sight, have to stand back at least 50 yards from the well. Oil men from all parts of the country are gathering on the scene, tanks are being built and machinery put on the ground to put down other wells.

It has been consuming this great quantity of oil for about a week now and preparations are being made to blow it out soon. It is reported that prices offered for leases in this bend are from \$10 to \$20 per acre and none can be had even at these figures. The owner of an adjoining farm was offered \$500 for a lease on enough land to bore one well and refused. I think a conservative estimate of the amount of oil shot forth every 10 minutes would be two or three barrels, which would make it at least 300 barrels a day. I will not continue this any further but one can hardly realize what a stampede it has caused unless they could see the great crowds of people traveling long distances day and night to see this wonderful volcano. Yours, J. W. DAVIS.

WENT TO VISIT HIS SISTER.

A J Cottingham went to Washington County, Ark., to see his sister and while there was taken with flux (dysentery) and was very bad off. He decided to try Chamberlain's Colic, Cholera and Diarrhoea Remedy and was so much pleased with the prompt cure which it effected, that he wrote the manufacturers a letter in praise of their medicine. Mr. Cottingham resides at Lockland, Ark. This remedy is for sale by Craig & Hocker, Druggists, Stanford.

What undoubtedly is the largest known tree in the world has been discovered on the government reservation far up in the Sierras, near Fresno, Cal. Six feet from the ground it took a line 154 feet 8 inches long to encircle the tree, making it over 51 feet in diameter.

IN NEIGHBORING COUNTIES.

Two more good strikes were made in the Richmond oil field in Knox county. Judge John H. Westover has sold the Williamson, Ky., Courier to Mr. Tim Needham.

Theodore Hyatt and Miss Addie Backla, both of Parksville, drove to Danville and were quietly married by Judge W. H. Prewitt.

The Alpha Oil Co. No. 2 well on the G. F. Sanders' farm in Wayne came in. The oil stands 60 feet deep in the well. This promises to be one of the best wells on Beaver creek.

F. P. James, cashier of the Mercer National Bank, of Harrodsburg, has succeeded in organizing a bank at Mackville, of which J. W. Sallee was made cashier. A new bank building will be erected and opened for business within the next few weeks. The bank will start with a \$15,000 capital.

At Burgin, John Farra, yardmaster of the Cincinnati Southern, was arrested on the charge of being one of several thieves who have been operating for two months or more. Farra waived trial and was released on \$250 bond. It is said that from six to ten more persons of Burgin are suspected and several arrests probably will follow tomorrow. All kinds of merchandise have been stolen and among the suspected persons are some who have stood well in the town.

MATRIMONIAL.

News has just been received here of the marriage of Mr. Victor Owens and Miss Lillie D. Murphy, of Junction City. They were married here Wednesday, July 23rd. Mr. Owens is the telegraph operator at Junction City for the L. & N. railroad, while his bride is one of Junction City's prettiest and most popular girls. They will make their home in Somerset—Danville News.

A Pineville dispatch says: While the Rev. C. Slusher was working in a glazing field on Straight creek, he was hailed by a couple on horseback, who asked him to come to the fence. He did so and found it to be James and Sissie Gambrel, whom he had married ten years previous, but who had since been divorced, married again and again divorced and for the third time had procured a marriage license. They asked him to again make them one. Mr. Slusher stood on the inside of the fence while the couple sat on their horses, and were again married. The marriage certificate reads: "The holy rites of matrimony between James Gambrel and Sissie Gambrel were performed by Rev. C. Slusher, at the Ginseng Patch, near P. J. Galloway's."

Henry L. Shattuck of Shellsburg, Ia., was cured of a stomach trouble with which he had been afflicted for years, by four boxes of Chamberlain's Stomach and Liver Tablets. He had previously tried many other remedies and a number of physicians without relief. For sale by Craig & Hocker, Druggists Stanford.
